

List of Needs

January 2009

គ្រួសារថ្មី

We have conducted early this year an **evaluation of the needs in our structures**. Many new items have been added to the list. They are the results of cautious estimations and agreements made by Krousar Thmey's Executive Committee. Here is our highest priority: the **protection centre of Takhmao** faces every year **serious flooding**. Considerable works are requested, among which landfill and levelling up of the building in order to **ensure decent hygienic conditions to the children and prevent from the risks of sickness**. (! Code 15, cost: 11 900\$)
